

# TIMECOMPRESSOR

*SOMETIMES YOU NEED MORE THAN 36 HOURS IN A DAY...*

To allow companies and individuals to truly “do more with less”, MegaLucky Software Inc. has developed the TimeCompressor application. Written in full compliance with the latest coding standards and duly optimized for enhanced efficiency, this cloud-based system is designed to integrate seamlessly with your current business processes, generating up to 10 additional minutes for every one elapsed minute. Time compression durations and frequencies are fully user configurable using a simple user interface. TimeCompressor can be integrated to run directly within the brains of individual personnel or on a corporate domain controller in batch mode, where time compression can be implemented throughout the entire organization with minimal user participation.

## FEATURES

TimeCompressor includes a variety of cutting-edge features such as reentry burnout mitigation, time shift resequencing, entropy erasure, and light curvature sintering. Simply stated, TimeCompressor will allow you and your staff to be up to 10 times more efficient; accomplishing up to two weeks of work per typical 8 hour day. In addition, operating while under the influence of MegaLucky’s TimeCompressor application produces a pleasant tingling sensation.

## ADDITIONAL APPS AND SERVICES

TimeCompressor is one component of a set of modular software applications for time manipulation, emotion optimization, brain cloning, invisibility, opulence generation, and flawlessness. MegaLucky Software has also developed advanced hardware-based antimatter generation and antigravity propulsion systems. To meet client needs, MegaLucky staff stand ready to provide all installation, configuration, training, technical support, and other spiffy services.

## CONTACT US

To obtain more information on MegaLucky’s TimeCompressor and other advanced products and services, contact Felix Tempus Fugit, MegaLucky Reality Manager at 1-800-000-0000 or via email at [megalucky@victorylogic.com](mailto:megalucky@victorylogic.com).

*Thank you, and may time be on your side ☺*
